## A NEGRO'S CREED.

W. E. Burghardt du Bois, a Harvard Ph. D., who has written several books on the negro problem and is now a professor in a negro college in Atlanta, formulates his "Crede" in the pages of the New York Independent October 6. It is as follows:  
"I believe in God who made of one blood all races that dwell on earth.  
"I believe that all men, black and brown and white, are brothers, varying through Time and Opportunity, in form and gift and feature, but differing in no essential particular, and alike in soul and in the possibility of infinite development.  
"Especially do I believe in the Negro Race: in the beauty of its genius, the sweetness of its soul, and its strength in that meekness which shall yet inherit this turbulent earth.  
"I believe in pride of race and lineage and self; in pride of self so deep as to scorn injustice to other selves; in pride of lineage so great as to despise no man's father; in pride of race so chivalrous as neither to offer bastardy to the weak nor beg wellock of the strong, knowing that men may be brothers in Christ, even tho they be not brothers-in-law.  
"I believe in Service—humble reverent service, from the blackening of boots to the whitening of souls; for Work is Heaven, Idleness Hell, and Wage is the 'Well done' of the Master who summoned all them that labor and are heavy laden, making no distinction between the black sweating cotton-hands of Georgia and the First Families of Virginia since all distinction not based on deed is devilish and not divine.  
"I believe in the Devil and his angels, who wantonly work to narrow the opportunity of struggling human beings, especially if they be black; who spit in the faces of the fallen, strike them that can not strike again, believe the worst and work to prove it, hating the image which their Maker stamped on a brother's soul.  
"I believe in the Prince of Peace. I believe that War is Murder. I believe that armies and navies are at bottom the tinsel and braggadocio of oppression and wrong; and I believe that the wicked conquest of weaker and darker nations by nations whiter and stronger but foreshadows the death of that strength.  
"I believe in liberty for all men; the space to stretch their arms and their souls; the right to breathe and the right to vote, the freedom to choose their friends, enjoy the sunshine and ride on the railroads, uncoursed by color; thinking, dreaming, working as they will in a kingdom of God and love.  
"I believe in the training of children, black even as white, the leading out of little souls into the green pastures and beside the still waters, not for pelf or peace, but for Life lit by some large vision of beauty and goodness, and truly, lest we forget, and the sons of the fathers, like Esau, for mere meat barter their birthright in a mighty nation.  
"Finally, I believe in Patience—pa-

## AUTO PARADE IS ASSURED

COMMITTEE APPOINTED YESTERDAY TO TAKE CHARGE OF ARRANGEMENTS.

A meeting was held at the rooms of the Hawaii Promotion Committee yesterday afternoon, for the purpose of arranging plans for the automobile parade on Thanksgiving Day. The following committee on arrangements was appointed: C. W. C. Deering, C. L. Wight, E. M. Boyd, Gus Schuman and A. A. Young. The autos will rendezvous at Union Square opposite the Capitol at 10 a. m. Thanksgiving and then go out King street to Waikiki road to Kapiolani park. The judges of whom Governor Carter will be chairman, will occupy an automobile and view the parade as it leaves the park.

At Kapiolani park the procession will be reviewed by the judges and the prizes awarded. There will be a blue pennant for first, red for second and white for third place. The cars will be divided into the following classes: Tonneau cars of which there are four Whites and Ramblers; Convertible cars in which there are Oldsmobiles and a Ford; Surreys and dos-a-dos, a class made up of Locomobiles and other steam machines; Runabouts, in which class there will appear both steam and gasoline cars and a number of makes, including one locally built car.

It is thought that at least 20 cars will be in line. The judging will be on the basis of uniqueness of design in decoration, completeness of detail and the general appearance of the car. After the judges will have announced their decision, the prize winners will then head the line and the cars maneuver about the park and return to the city, making a detour through the Makiki residence district. E. M. Boyd will be marshal of the day.

## IS KING OF THE LAYSAN ISLAND

MAX SCHLEMMER, WHO HOLDS A GUANO MONOPOLY, LIVES ALONE AMONG THE ASIATICS.

TACOMA, Wash., November 1.—Max Schlemmer has arrived at Port Townsend on the schooner Robert Lewers from Laysan Islands, which lie 300 miles southwest from Honolulu and 300 miles from Midway Islands. Three islands from the Laysan group, which comprise veritable mines of guano, which is deposited a few feet below the surface.

Twenty years ago Schlemmer left Puget Sound for Honolulu. From there he went to Laysan and entered the employ of the Pacific Guano and Fertilizer Company, of which he subsequently became manager. Several years ago he bought out the company and now conducts the business in his own name. Laysan islands were formerly a part of Hawaii and are now under American protection lease, which Schlemmer obtained from the Hawaiian Government. The lease still has nine years to run, with the privilege of renewal.

The largest island is nearly worked out and next year operations will commence on the other two. The annual output of guano reaches 45,000 tons, which is shipped to Hawaiian sugar plantations. The mining is done by a hundred Asiatic coolies. Schlemmer lives there with his wife and seven children, who are the only white people there.

## PRaise FOR THE SHERIFF

WORKERS OF THE W. C. T. U. ENDORSE HIS EFFORTS TO GIVE HONOLULU A QUIET SUNDAY.

There were fifteen members present at yesterday's meeting of the W. C. T. U., which was held in the parlors of the Central Union Church. The principal matter under discussion was the manner in which the Sunday closing and the liquor laws are being enforced by High Sheriff Henry. The members joining in warmly praising the sheriff for his insistence in enforcing the law. Mrs. Hall and Mrs. Whitney spoke in favor of local option.

Mrs. Stevens told of the growth of temperance sentiment in Ohio and Mrs. Ryder gave a description of the work done by the Loyal Temperance Legion in Kakaako. Miss Whiteman called the attention of the meeting to the number of children who are seen on the streets at night and suggested that the old curfew law might be introduced.

ARMY RESERVES DEPARTING.  
The S. S. Dorio will be able to take 150 members of the Japanese army reserves who have been awaiting an opportunity of getting away to Japan to enter the military service of that country. They will sail from Honolulu this afternoon.

## NEWS BY CABLE

RENOUNCES CATHOLICISM.  
ROME, Nov. 16.—The Marquis Monstiers, nee Caldwell, founder of the Catholic University at Washington, has renounced Catholicism. The act has caused a great sensation.

Miss Mary Caldwell founded the Catholic University of America in 1864 by a gift of \$500,000 for the establishment of a superior institution of ecclesiastical learning. The gift was accepted in the same year by the bishops of the Roman Catholic church and it was decided to locate the school at Washington, D. C. Around the divinity school for which Miss Caldwell's gift was primarily intended were to be grouped other schools, thus forming a great university. At present the plans are but partly realized, only the graduate schools being open but the work is developing rapidly and has been assisted by further generous gifts from Miss Caldwell and her sister as well as by others. Cardinal Gibbons as Archbishop of Baltimore is chancellor. The university was supposed to be badly involved in the recent failure of Thomas E. Waggaman, its financial agent, but later developments indicate that it will not incur any loss.

## RECORD CRUISE OF THE TACOMA

MAKES A RUN OF TWENTY-FIVE THOUSAND MILES WITHOUT ANY DEFECT IN HER MECHANISM.

NEW YORK, Nov. 5.—With a record cruise of more than 25,000 miles after being in commission less than ten months, the protected cruiser Tacoma arrived at the New York Navy Yard today. While the greater part of this distance has been covered in the last six months, the Tacoma came into port without a single defect in her mechanism having revealed itself, and the repairs that will be made at the yard will be minor ones, which would be necessary to any machinery after such hard usage. The Tacoma was built at the Union Iron Works at San Francisco and went into commission on January 31st. The only change of any consequence that will be made in the Tacoma is in the after magazine. The temperature of this magazine is too high for smokeless powder, particularly when she is cruising in the tropics. This will be remedied so that the temperature of the two magazines will be about the same.

## SMUGGLERS MAKE VAST FORTUNES

AMERICAN FIRMS PROFIT HEAVILY BY SHIPPING SUPPLIES TO GARRISON AT PORT ARTHUR.

LONDON, Nov. 7.—The Chefoo correspondent of the Express says that despite Japanese precautions Chinese junkers are continually smuggling provisions into Port Arthur. The latest junk to arrive got into the port on November 1st, while the bombardment was in progress. A shell exploded within a few feet of her as she was passing the Tiger's Tail. The junk was laden with supplies bought from an American agent by the Russian Consul at Tien-Tsin. More than six firms are making vast fortunes by running the blockade. On the average the Japanese sink one out of three of the blockade runners, but the prices obtained by the other two more than cover the loss of one vessel.

Three American firms have agents at Chefoo, who are doing a big business with the Russian Consul. One San Francisco firm withdrew from the compact after losing four junks successively. The others continue to accept commissions, but they have nearly doubled their prices since November 1st, owing to the continuous Japanese attack and the smaller chances of success. The Japanese have extended their patrol area, but the blockaders are stale from the strain of incessant night work for nine months and their effectiveness is thus lessened. The Chinese find it comparatively easy to slip past the blockading vessels at night.

These magnificent views are well worthy of permanent possession and study. They are of value for all time. There is no need to wait until the whole series is issued, for as a rule some of them are so soiled and worn as to render them unfit for binding, but you can begin now and keep each part in good condition.

The beautiful binder which we offer is made of the best English silk cloth, embossed in gold, the design being artistic and attractive, making it a handsome ornament for the center table. As there will be a tremendous demand for the binders, they have been manufactured in large quantities, thus bringing the price within easy reach.
